

ASSOCIATION
OF INNOVATIVE AND
DIGITAL EDUCATION

STRATEGY OF THE ASSOCIATION OF INNOVATIVE AND DIGITAL EDUCATION

We are a team of young but experienced people who meet the current needs of society through innovative educational projects.

We know that education is the first and foremost step in solving global problems and a powerful driver of positive social change.

We have a vertically integrated full-cycle structure to implement educational projects of any complexity in any country of the world.

OUR MISSION

to implement the concept of Lifelong learning through the launch of effective social lifts for the development of human capital in Ukraine.

OUR CORE VALUE

to help every Ukrainian develop and succeed in life.

НАШІ ЦІЛІ

To become a leader in innovative and digital education in Ukraine and the countries in which our organisation operates.

To promote the mental health of Ukrainians and create a safe environment in educational institutions throughout Ukraine.

To integrate AI into your own educational products.

To make civic education an integral part of the educational process in Ukraine.

To expand the network of Ukrainian Education Hubs to all countries of the EU, North America, the UK and other countries where Ukrainians live.

To ensure that schoolchildren and students make up for the educational losses caused by the war unleashed by Russia in Ukraine.

To provide Ukrainians with the opportunity to master the most commonly used languages (English, German, French, etc.).

To introduce practical tools that will allow for the widespread use of the "flipped classroom" technology, which will change the paradigm of the educational process in educational institutions to a modern one, in which students will be able to research topics on their own, and teachers will act as tutors to help students in this process.

To take an active part in the reconstruction of Ukraine after the war.
